

The 2011 walk solved!

From Ken's Market, begin with Clue #1. **From Buzzard-Buono**, go to where lean's under green and begin with Clue #12; continue with Clue #1 after you complete Clue #30. **From Starbucks**, go to Ken's or Buzzard-Buono, then re-read this paragraph!

- 1 **Weissbier** With the frozen water to your back, walk past 2530 to the exclamation point. Fraziskaner what? (N 47° 40.932 W 122° 21.326)
- 2 **Cat or Duck** When you reach the house, turn and proceed under the 18th century. What bather watches the amphibians? (N 47° 40.958 W 122° 21.364) **Someone added the duck to the bird bath after the Gumshoe was underway!**
- 3 **Brinks** Where the yellow-topped Corey stands, pivot to the direction it's not pointing and go to the next intersection. Put 865 behind you until you reach the tree within a tree. Who guards 143? (N 47° 40.994 W 122° 21.589)
- 4 **3/7** Continue to the cornered boulders and turn to the anti-letter sign. Walk past it and a spelled out version to the jeweled wall. In the yellow section, what proportion of cubes are clear? (N 47° 41.020 W 122° 21.633)
- 5 **Rope** Power under the tallest line to the area of no-cost pharmaceuticals and turn where the wood of the sign points. Below the seagull, chain or rope? (N 47° 41.079 W 122° 21.571)
- 6 **Mask** At the next crossroads, cross only one to walk toward the steeple. When the second ahead is directly across, what hangs in the tree by the porch? (N 47° 41.155 W 122° 21.484)
- 7 **Heart** Pass the solar garage and follow the wood fence to the lanterns. Heart or diamond? (N 47° 41.211 W 122° 21.505)
- 8 **Wings** Continue to where TBT plies its trade behind your back, look for the tallest wall and follow it past the red shutters, through the area where nobody rests, to the flier. Of what did he dream? (N 47° 41.257 W 122° 21.530)
- 9 **5** Proceed to the last large trunk, then turn in the direction the zone ends. Where the side chimneys are directly across from each other and standing close to the tree, look inside the fence for the garage ornament. How many obtuse angles? (N 47° 41.312 W 122° 21.484)
- 10 **1/2** Walk to where red runs over gold. If you subtract the sum of the founding year digits from the number of circled wheels, add half the number of gold hoofed animals to the remainder and divide the sum by the number of white lions, how many dozen do you get? (N 47° 41.350 W 122° 21.492)
- 11 **Dog** Head past the nearest bluest tree to the red wall. What's sleeping in the yard? (N 47° 41.350 W 122° 21.407)
- 12 **Hearing** When you reach Shannon's domain, pass the rooster to the place that evaluates, repairs and services. What sense? (N 47° 41.395 W 122° 21.328)
- 13 **SPKR** Continue past the fountain to cross the narrowest road and proceed past the handshakers to the root. AUTO what? See the inner folds of this form to play the **Special MiniGumshoe Contest** located here. (N 47° 41.438 W 122° 21.369)
- 14 **Davidson** Cross to where time stands still. Roy who? (N 47° 41.434 W 122° 21.400)
- 15 **24** Head in the direction of choice, past the nails, and turn just short of the green flame extinguisher to follow the least commercial road. At the first telephone pole, proceed over the nearest steel grate to the covered garage at the crest. How many hours a day? (N 47° 41.416 W 122° 21.580)

- 16 **Po** Walk to the rock wall and follow it to the end of the double yellow lines. Carefully cross the double yellow lines to reach the fenced mailbox. Under the glassed pole, Dumbo or Po? (N 47° 41.395 W 122° 21.665)
- 17 **4** Continue until you see a treehouse's dream, cross to it and head past the nearest non-green trees toward the island. Before you reach the island, turn to follow the shrubbiest path to the brick wall. How many monkeys? (N 47° 41.364 W 122° 21.793)
- 18 **Canines** Proceed to Roebuck's ex's enclosure and follow its turn to 17's dream fulfilled. Below the post, canines or felines? (N 47° 41.307 W 122° 21.702)
- 19 **USDA** Walk to where it's better. Who inspects? (N 47° 41.299 W 122° 21.664)
- 20 **Madonna** Look for the three yellow nozzles and travel in the direction the largest points until you come to the second studio. Picasso or Madonna? (N 47° 41.251 W 122° 21.641)
- 21 **Seattle** Continue until you pass the twin brown diamonds on the left and the 78 white and brown gateways on the right, then turn to 20. What goes with 96-1 and 96-2? (N 47° 41.130 W 122° 21.648)
- 22 **Blue & Yellow** Walk to the bowling ball fence. What combined primaries give the ball between the avian residences its color? (N 47° 41.133 W 122° 21.776)
- 23 **Play** Diagonal through the island to the multi-planed stones, then follow the uninterrupted stack past the palmed doors to the green metal box. Turn to the arch and step over the wall. Besides live and love, what do Dale and Doree advocate? (N 47° 41.059 W 122° 21.812)
- 24 **Awake** Leave through the columnar quad and face the pocket. Turn 540 degrees and proceed past the barrier to the hiding swans. Is the gate asleep or awake? (N 47° 41.046 W 122° 21.705)
- 25 **South** Approaching the horizontally striped and diagonally opposed posts, turn to pass the law and follow the pickets around the corner. Go to the countdown address. The animals under it – what pole? (N 47° 40.994 W 122° 21.697)
- 26 **Labrador** Walk past the cairn to the corner, turn in the direction of the squirrel-proof tree and proceed until you see the xing left. Walk to it. What kind of dog? (N 47° 40.929 W 122° 21.776)
- 27 **Integrity** Continue to the wooden weave. What virtue is displayed nearby? (N 47° 40.930 W 122° 21.697)
- 28 **Moon** Carefully cross the twin yellow lines again and climb where gravity offers its greatest challenge. In the star gate, what's not a star? (N 47° 40.928 W 122° 21.592)
- 29 **Paves** Continue until only stops you. Rearrange the letters of the brand to describe what a worker does to a scooter's way. (N 47° 40.930 W 122° 21.477)
- 30 **Traffic** Turn toward the abandoned driveway and curve the opposite way water runs to the bump. Cross where the rubber meets the road, cautiously noting what goes with Logix. Walk past the yellow guard cylinders. (N 47° 40.906 W 122° 21.397)
